

錆

超高速サビ除去剤

RSR-2 改良無臭タイプ

安全・簡単・便利

Rust&Scale Remover-2

Strong

RSR-2 removes even heavy rust in 30 seconds

1kg・850ml入り

"RSR2"の錆取り

Applying anti-rust solutions such as ER-G3000 after rust removal is highly recommended

専用中和錆止剤ER-G3000▶

<Application>

- Removal rust from motorcycle fuel tank
- Removal rust from vintage car & classic car
- Removal rust from metallic part and screws
- Cleaning of tools and weapons
- Cleaning of machines such as food processing machines
- Cleaning of rust stains
- Scale removal from pipes
- Cleaning of heat exchanges
- Cleaning of materials in coating factories
- Cleaning of pipes in hot springs
- Cleaning of toilet stains
- Removal of oxidized film
- Peel surface of concrete wall off building
- Wash parts of weld with RSR-2
- Removal of rust and scales from kitchens

<Direction>

- Rust is removed easily by only immersing in RSR-2
- Not necessary to rub or polish. Just wash with tap water afar removing rust.
- You can brush or spray on the RSR-2 for big objective.
- RSR-2 never attacks original metal, rubber, Chromium & Nickel plating no matter how long it is immersed.
(It may melt or change color if the objective is low purity Chromium & Nickel plating.)
- Use gloves when handling RSR-2; it may infiltrate skin with wounds.
- You can dilute RSR-2 with water and dispose of the solution in a drain after use.
- ◆It may take a few hours to get rid of rust, depending on grade of rust.
- ◆RSR-2 is a strong acid, originally pH1. Hence it will be necessary to neutralize the liquid first if it is still effective and especially if it has to be disposed of in a large quantity.

<Caution>

- ★RSR-2 may melt soft vinyl and nylon stocking upon contact.
- ★RSR-2 may slightly melt containers made of materials such as aluminum, tin and zinc due to its restraining effect.
- ★Stainless steel might be discolored. As such, it is necessary to find the suitable dilution rate before use.

Carefully read the directions label before use.

<Ingredient> Fruit citrates acid/Special high grade vegetable fatty oil /Nonionic amphoteric surfactants
